#### **ABOUT US**

RIDA Group is an All-Sudanese modern industrial group specialised in mining and mineral exploration. With nearly 30 years of experience, 13 subsidiaries, about 5+ (Billion Dollars) worth of mineral resources, and a (Thousand) employees, RIDA Group is proudly one of the biggest and most prosperous mining groups in Sudan.

Driven and guided by the principles of innovation and constant development, RIDA Group was able to modernise its institutional corporate culture as well as its mining and mineral exploration operations.

Moving from success to success, it was able to expand into a pioneering mining group and a widely trusted provider of a wide range of services and solutions within the settings of development, construction, and engineering. Key minerals under exploration, development, and production include Gold, Silver, Chrome, Copper, Zinc, lead and other industrial minerals.

#### VISION

As a leading mining and mineral exploration group, RIDA Group is aware of the complexity of the past, the challenges of the present, and the opportunities of the future. RIDA's vision is therefore well informed, guided, and anchored upon the firm commitment towards increasing value and maintaining high sustainable growth prospects. Ideally, RIDA Group will forge ahead to become one of the top 5 mining groups in Africa.

Our vision is also informed by our strategic objectives including diversification of our businesses and works; optimisation and improvement of our operational capacities and technologies; good governance, sustainable management, and effective change management; in addition to ensuring constant development and improvement of our personnel and human resources.

#### **MISSION**

Formulating and setting the mission of RIDA Group is a process primarily taking into consideration the successful integration between ethical responsible natural resources exploration and sustainable development. Our mission at RIDA Group is working together to provide sustainability, stability, prosperity, and health care through stable leverage of mining; turning natural resources into capital and sustainable development that will enable partners to fulfil their growth potential.

#### **VALUES**

The values of RIDA Group are inspired by our people-centred philosophy. We believe that we owe our success and growth to the people. We always value and prioritise the health and safety of our employees, suppliers, host communities, and partners. people-centred philosophy accompanied by our firm obligation and commitment with regard to the environment — at RIDA Group, we always strive to ensure environmental ecological safety across all our operations and works

# RIDA GROUP AND THE NATIONAL ECONOMY

RIDA Group is Sudan's first privately owned mining and mineral exploration company with a demonstrated history in successful gold mining and exploration. Accordingly, RIDA Group was able to earn its position as a leading corporate force with an influential role across an industry estimated to be the employer of more than (3 million) people. A group the calibre of RIDA is more than aware of its responsibility to join forces with the hard-working, courageous, and strongly determined Sudanese people aiming to achieve sustainable development and national economic growth.

#### **SERVICES AND SOLUTIONS**

RIDA Group is an inclusive, self-sufficient, all-in-one provider of a wide range of services and solutions within the settings of mining and mineral exploration.

Through its subsidiaries, including namely REMED Engineering, RIDA Groups offers:

# ENGINEERING, PROCUREMENT, CONSTRUCTION, AND COMMISSIONING SERVICES (EPCC)

RIDA Group is actively providing all these types of services for mining and mineral exploration projects. Making use of state-of-the-art technologies, innovative solutions, and globally recognised best practices, our experienced engineering teams are more than ready and prepared to answer to all the needs of large scale mining and exploration projects of precious minerals. Our clients and customers always enjoy world class optimum quality services and solutions for all EPCC projects.

#### MINING INTELLIGENCE

Through REMED Engineering, RIDA Group benefits from its experience and technical knowledge in providing a diverse variety of customised and tailored services and solutions to investors and businesses including decision-making support and assistance; data collection and analysis; reserve evaluation; feasibility and market studies: business modelling and development; addition risk in management planning.

#### RESEARCH AND DEVELOPMENT

As a leading corporation with great future ambitions, research and development efforts played an integral role in our successful integration of innovation into our works and operations throughout our history. Our path towards achieving innovative industrial and institutional modernisation was always guided and directed by substantial research and development. We are always ready to share and make available our experience in research and development to introduce new technologies in various areas of our work including down-stream activities particularly within the settings of mineral extraction metallurgical. Our and immediate objectives within this regard include developing innovative technologies able to incorporate environmental and ecosystem safety concerns including water resources safety as well as energy emission constraints.

#### DRILLING

At RIDA Group, we have a thorough understanding of the central role of drilling activities and operations within mining and mineral exploration. We stand strong with our extensive expertise and experience to provide the best world-class drilling services and solutions for all mining and mineral exploration projects. Our approach takes into account the specific needs for each project; ensuring adherence to all necessary requirements related to safety, quality, and cost. The use and utilisation of the best machinery (core drilling and reverse circulation machinery) together

with cutting-edge technologies and techniques, including information evaluation tools, allow our multinational drilling teams to successfully conduct complex drilling operations such as rotary steering — leading to successful reservoir navigation processes.

#### EXPANSION IN AFRICA

Aware of the immense capabilities and prospects for growth in the mining and mineral exploration industry in Africa, Rida Group is more conscious than ever about the necessity to grow bigger in terms of projects. subsidiaries and We determined and ready to expand our works in order to implement our expansion plans in Africa due to the decisive role that the industry can plav in achieving developmental and economic growth objectives in the continent.

Our current exploration operations are spread across (4) countries within Africa total of 45 Licenses: Morocco (31 Blocks); Sudan (8 Blocks); Guinea (5 Blocks); and Eritrea (1 Block).

### LABORATORY TESTING SERVICES AND SOLUTIONS

We focus mainly on providing laboratory testing services and solutions for mineral assay and evaluation. In addition to services and solutions related to sample preparation.

2020

The Lunching of RIDA Group Strategy which started the Business Transformation Programme that emphasised the modernisation of RIDA Group across all business operations, the year 2016 also witnessed receiving The Achievement Shield Award from Sudanese Mineral Resources Company Limited

2019

2018

(3) gold mining blocks acquisitions were successful in Guinea

Witnessed the establishment of TMK Gold Project partnership with TMH Company in Guinea. Also in this year REMED Engineering was established

2011

2013

Artisanal mining tailing re-processing methodology was introduced in Sudan

Emirates Company acquisition in "Durdeeb, Haya", Sudan

2009

2007

Alabediya heap leach plant production started (1st gold capacity of 3000 tons/day)

Alabediya heap leach plant construction started

MILESTONES & ACHIEVEMENTS

New projects in the fields of energy, agriculture, and technology. "Mine Needs" Training Center, allowed for further needed diversification of RIDA Group businesses and works.

RIDA Group subsidiary (R&R) began production operations in Guinea, furthermore, 31 mining blocks acquisitions were successful in Morocco

2016

2017

Witnessed the acquisition of the second gold exploration block in "Kerkebet", Eritrea

Sutrebab mine feasibility study was conducted. Also this year witnessed receiving the Golden Outstanding Company Award from Ministry of Minerals in Sudan

2014 2015

Witnessed the start of production in the CIL plant (Capacity of 1500 ton/day), And also witnessed the Acquisition of the 1st Block in Eritrea A second heap leach plant started production (Capacity of 3000 tons/day)

2003

The Drilling Section was established

RIDA Group started the acquisition of a gold exploration block in Alabediya, Sudan

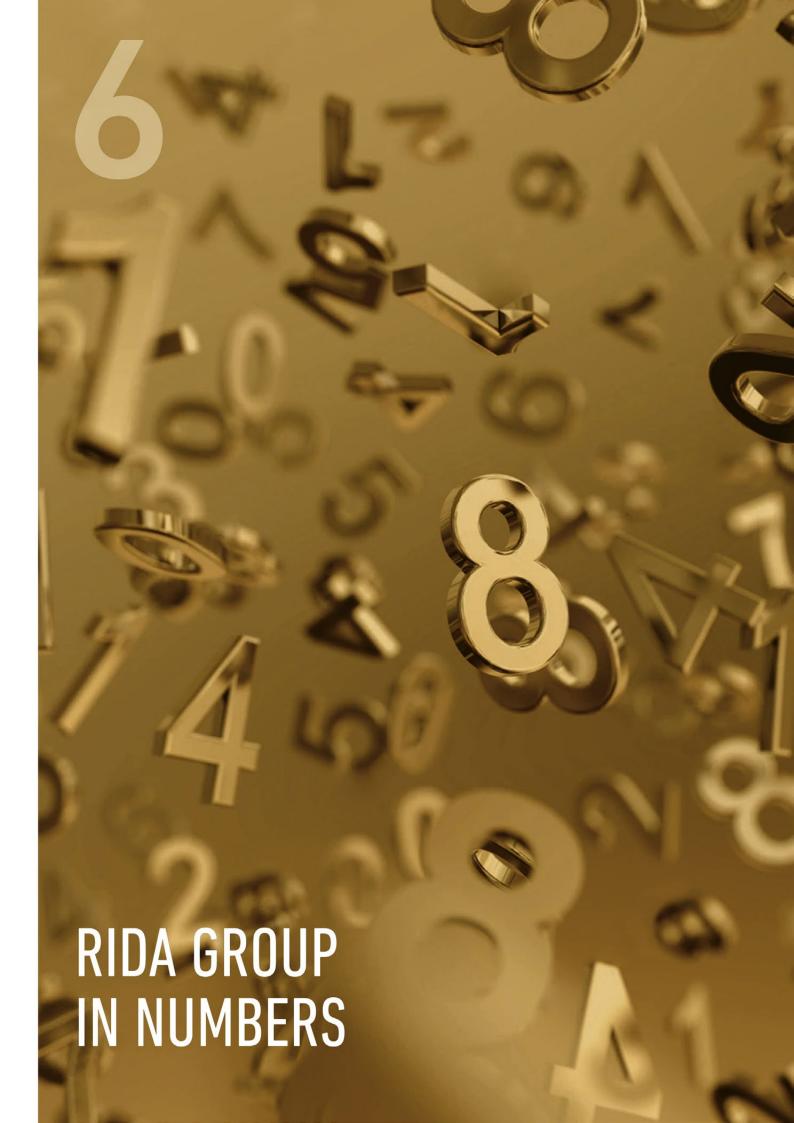

2000

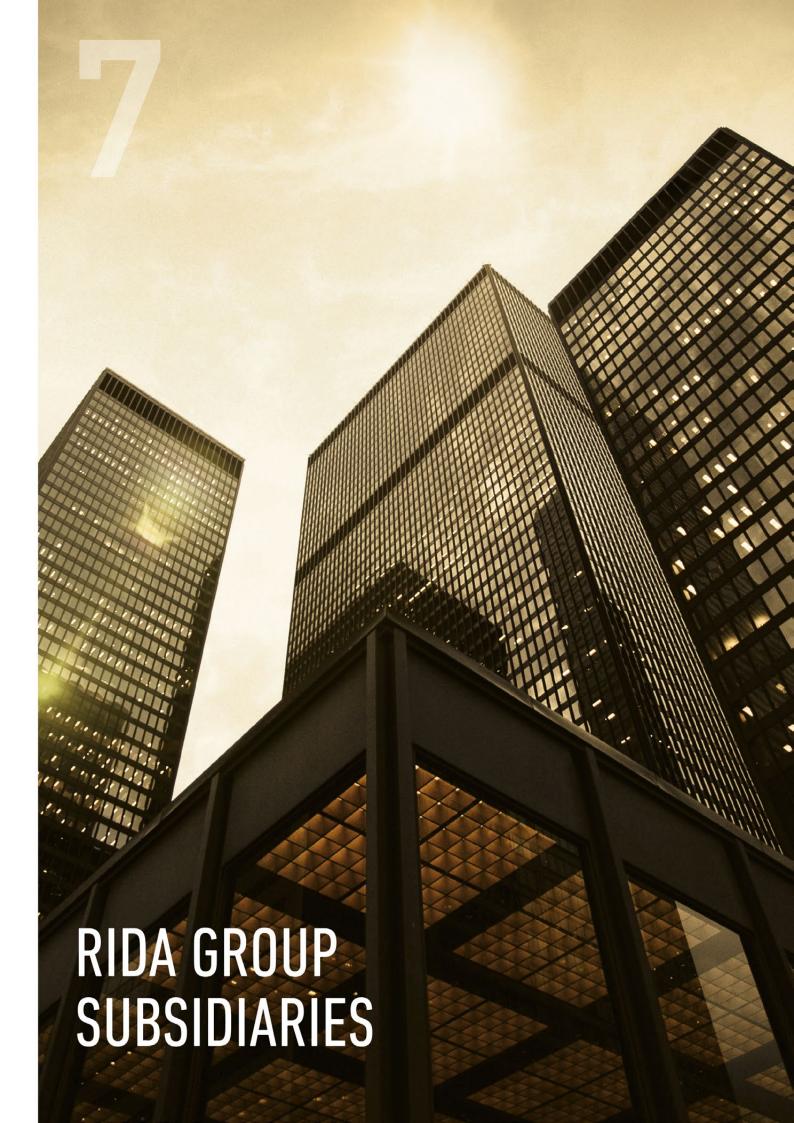

Birth of RIDA Group

1996

RIDA Group started exploration operations for Chromium in Angassana, Sudan

	5	Processing Plants
	+5	Billion USD of Mineral Resource
သို့	13	Subsidiaries Operating in 5 Countries
	30	Years of Accumulated Experience
<u></u>	45	Mining Licenses
8	+1000	Employees
	+19,000	Meters of Core Drilling
K	+100,000	Meters of Trenches
	+110,000	Meters of RC Drilling

# RIDA ENGINEERING AND CONSTRUCTION

Located in **Sudan**; with 751km<sup>2</sup> of licensed Block.

RIDA MINING

Located in **Sudan**; the company focuses on artisanal gold tailings processing; with 1,500 tons/day of CIL Plants and 15,000 tons/month of VAT plants.

**EMIRATES MINING** 

Located in **Sudan**; acquired an exploration block in Red Sea state, Sudan; ownership of 2 mines; with 881km<sup>2</sup> of licensed Block.

REMED ENGINEERING

Located in **Sudan**; a leading company specialised in delivering mining technology, engineering projects, procurement services, construction, and commissioning services; with USD \$20+ Million in executed projects capital.

#### **UMDURMAN MINING**

Located in **Sudan**; the main focus is on gold mining and artisanal rock acquisition; ownership of 2 mines: Alsalam and Sutribab mines; operating multiple processing plants including a 3,000 tons/day heap leach (CIC) plant, in addition to the ongoing new project (1000 tons/day CIL plant) and the (CIC) expansion project to reach 6000 tons/day.

# RIDA ENGINEERING AND CONSTRUCTION

Located in **Eritrea**; acquired an exploration license in Kerkebet, Eritrea; with 1065km<sup>2</sup> licensed Block

#### MINE NEEDS

Is a corporate training center founded in 2020, specialize in training and human capital development, for both management and technical skills. In addition to the extensive industrial experience in mining industry, it has a pool of experts and facilitators specialised in specific areas that serve organizations of numerous industries. "Mine Needs" work together with organizations as smart partnership in providing hands-on solutions to help solve day to day business challenges by developing their employees.

#### **ROHAX INTERNATIONAL**

This company owns 3 subsidiaries in **Guinea**, which are:

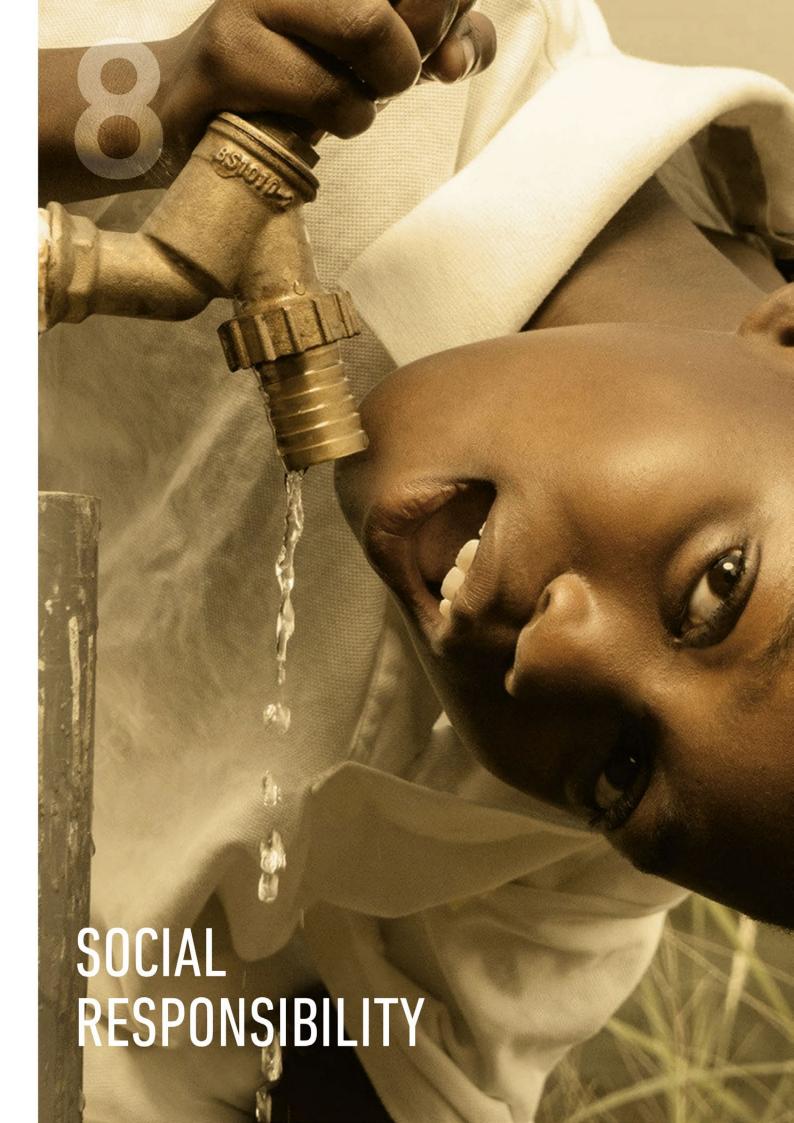

- Manding Gold Company, Guinea; with an Exploration license for a licensed Block of 42km<sup>2</sup>.
- Stellar Guinea Company, Guinea; with an Exploration license for a licensed Block of 100km², and finally.
- R&R Company, Guinea; with the main focus of gold mining; owns an Exploration license for a licensed Block of 7.52km<sup>2</sup>; and operates processing plants for ongoing projects with the capacity of 1000 tons/day (VAT Leach Plant).

#### **ROHAX MINING**

Located in **Morocco**; Recently acquired BKN Company which have 31 Exploration Licenses.

#### **ROHAX TRADING**

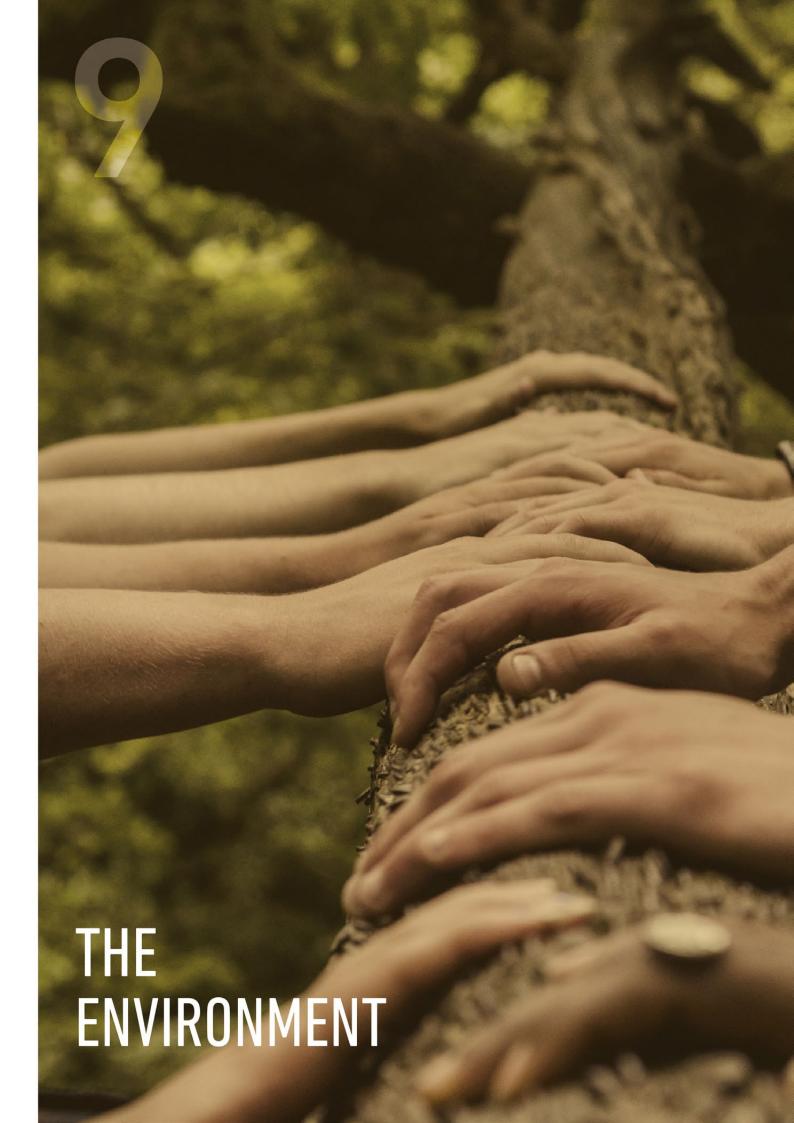

Located in **UAE**; dedicated to providing supply chain services and raw materials for mining activities (procurement and logistics).

#### SOCIAL RESPONSIBILITY

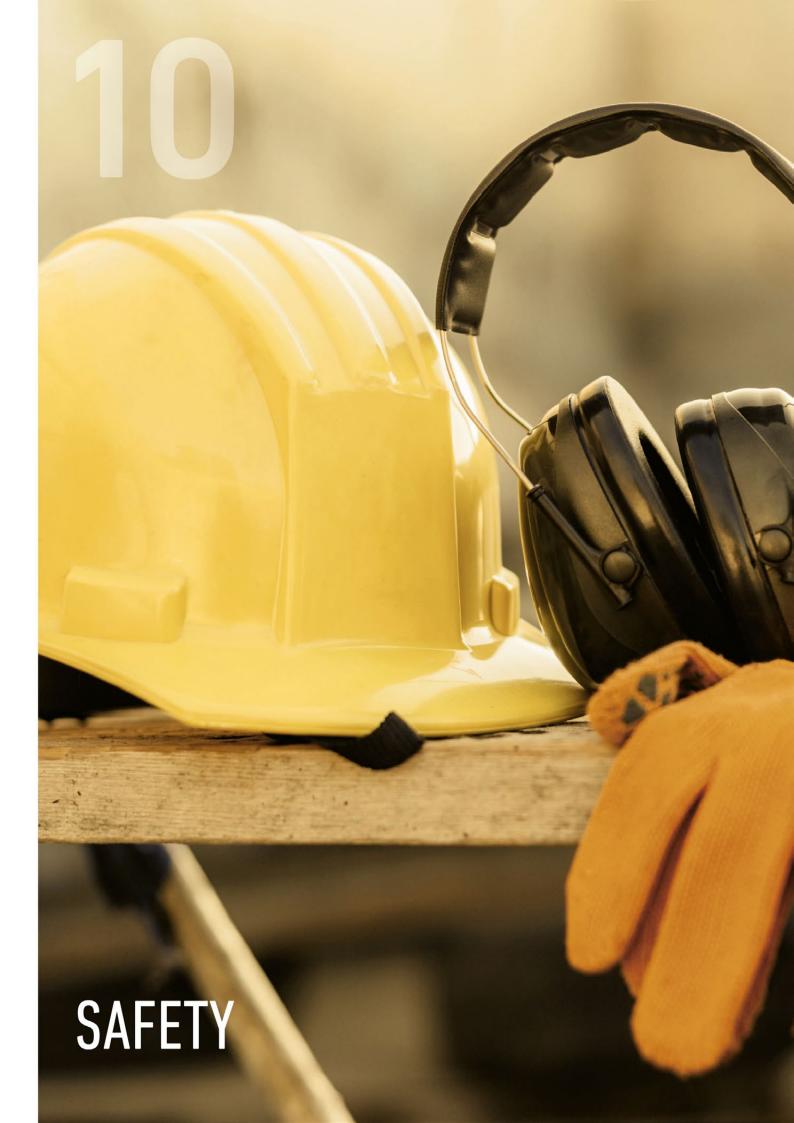

As a modernised industrial group, we are substantially and completely aware of our social responsibilities. In order to ensure that all our works and activities are socially responsible, we enshrined the main principles of corporate social responsibility within the core of our strategic visions, our mission, and our values. Starting from our people-centred philosophy to our firm commitment to ethical and responsible natural resources exploration, we are committed promoting and supporting sustainable long-term growth not just for our group, but also for our host communities. Ultimately, our corporate social responsibility activities provide integral support for our host communities as part of the efforts aimed at achieving sustainable development, enhanced standards, improved local infrastructure, and better protection for the environment.

### THE ENVIRONMENT

As taken into consideration as part of our mission and values, we follow the best emerging trends and globally recognised best practices aimed at environmentally conscious mining and mineral exploration. Our solid adherence to the highest standards of health and safety demonstrates our excellent risk management practices and environmental protection precautions.

#### SAFETY

The safety and health of all parties and stakeholders as part of the whole mining and mineral exploration value chain are well taken into consideration by RIDA Group. We strongly support and promote the wellbeing and welfare of not just our staff and employees, but also all the members of our host communities. RIDA Group successful developed and implemented core compliance initiatives consisting of policies, procedures, and training programmes for all staff within emergency management services, performance monitoring, and risk evaluation settings.

#### **INNOVATION**

Throughout its history, RIDA Group was always able to achieve paradigm shifts with regard to its works and operations by relying on innovation and innovative solutions. As a modernised and ambitious mining and mineral exploration corporation, we are prepared for the future because we place our trust on innovation. Combining the latest scientific research with innovative technologies will always allow us to incorporate innovation within all our business operations.
