ABOUT US

ABOUT US

RIDA Group is a contemporary industrial group with a global presence, operating in multiple countries and specializing in mining and mineral exploration. With over 30 years of experience, 13 subsidiaries, mineral resources valued at over 1 billion dollars, and a workforce of a thousand employees, RIDA Group proudly stands as one of the largest and most successful mining groups in Northern Africa.

Driven by principles of innovation and continuous development, RIDA Group has modernized its corporate culture and enhanced its mining and mineral exploration operations. Progressing from one achievement to another, RIDA Group has evolved into a pioneering mining conglomerate and a trusted provider of diverse services and solutions in development, construction, and engineering sectors.

Key minerals currently under exploration, development, and production include Gold, Silver, Chrome, Copper, Zinc, and Lead.

An aerial, high-angle photograph of a large industrial facility, likely a cement or steel mill, during the golden hour. The scene is dominated by a complex network of elevated conveyor belts and structural steel frameworks. In the background, several large, rectangular industrial buildings are visible. The ground is a mix of dirt, gravel, and concrete, with numerous tire tracks crisscrossing the area. The lighting is warm and directional, coming from the right, which creates long, dark shadows and bright highlights on the machinery and structures. A large, semi-transparent number '2' is positioned in the upper left corner of the image.

2

VISION, MISSION & VALUES

“ We always strive to ensure environmental and ecological safety across all our operations and works

VISION

As a leading group in mining and mineral exploration, RIDA Group understands the complexities of the past, the challenges of the present, and the opportunities of the future. Our vision is grounded in a strong commitment to increasing value and maintaining sustainable growth. Ideally, RIDA Group aims to be one of the top 5 mining groups in Africa.

Our vision is shaped by strategic objectives that include diversifying our business operations, optimizing and enhancing our technological capabilities, promoting good governance and sustainable management practices, implementing effective change management strategies, and continually developing and improving our personnel and human resources

MISSION

Formulating the mission of RIDA Group involves a deliberate process focused on integrating ethical, responsible natural resource exploration with sustainable development. Our mission at RIDA Group is to collaborate towards sustainability, stability, prosperity, and healthcare through stable leverage of mining; turning natural resources into capital and sustainable development that will enable partners to fulfil their growth potential.

VALUES

At RIDA Group, our values are rooted in a people-centered philosophy. We prioritize their health and safety, along with that of our employees, suppliers, host communities, and partners. Our commitment to environmental stewardship is equally steadfast—we ensure environmental and ecological safety in all our operations and endeavors

3

**RIDA GROUP
& THE NATIONAL
ECONOMY**

RIDA GROUP AND THE NATIONAL ECONOMY

RIDA Group places significant importance on the well-being and stability of the national economy of the countries in which it operates. In Sudan for instance, RIDA Group is the first privately owned mining and mineral exploration company with a demonstrated history in successful gold mining and exploration. Accordingly, RIDA Group was able to earn its position as a leading corporate force with an influential role across an industry estimated to be the employer of more than (3 million) people. A group as distinguished as RIDA is keenly aware of its duty to unite with industrious, brave, and determined individuals to empower its community towards achieving sustainable development and national economic growth.

4

SERVICES AND SOLUTIONS

RIDA Group operates as a comprehensive and self-sustaining provider offering a diverse array of services and solutions in the fields of mining and mineral exploration. Through its subsidiaries, including REMED Engineering, RIDA Group delivers a wide range of offerings:

- **ENGINEERING, PROCUREMENT, CONSTRUCTION, AND COMMISSIONING SERVICES (EPCC)**

RIDA Group is actively engaged in providing comprehensive services for mining and mineral exploration projects. Utilizing cutting-edge technologies, innovative solutions, and globally recognized best practices, our experienced engineering teams are fully equipped to meet the requirements of large-scale mining and exploration projects focused on precious minerals. Our clients consistently receive world-class quality services and solutions for all EPCC projects.

- **MINING INTELLIGENCE**

Through REMED Engineering, RIDA Group leverages its expertise and technical knowledge to offer a wide range of customized services and solutions to investors and businesses. These include decision-making support, data collection and analysis, reserve evaluation, feasibility and market studies, business modeling and development, as well as risk management planning

SERVICES & SOLUTIONS

• RESEARCH AND DEVELOPMENT

As a leading corporation with ambitious future goals, our commitment to research and development has been pivotal in integrating innovation into our operations and achievements throughout our history. Our journey towards advancing industrial and institutional modernization has always been guided by extensive research and development efforts. We are committed to sharing our research and development experiences to introduce new technologies across various aspects of our operations, particularly in downstream activities such as mineral extraction and metallurgy. Our immediate objectives include developing innovative technologies that prioritize environmental and ecosystem safety, including the conservation of water resources and reduction of energy emissions.

• DRILLING

At RIDA Group, we recognize the critical importance of drilling activities in mining and mineral exploration. Leveraging our extensive expertise and experience, we are dedicated to delivering world-class drilling services and solutions tailored to the specific requirements of each project. Our approach ensures strict adherence to safety, quality, and cost-efficiency standards.

We employ state-of-the-art machinery such as core drilling and reverse circulation equipment, alongside advanced technologies including data evaluation tools.

• EXPANSION IN AFRICA

Acknowledging the significant potential and growth opportunities in Africa's mining and mineral exploration sector, RIDA Group is committed to expanding its footprint through increased subsidiaries and projects. We are prepared to execute our expansion plans in Africa, recognizing the industry's pivotal role in advancing developmental and economic objectives across the continent.

Currently, our exploration activities span four African countries with a total of 45 licenses: Morocco (31 blocks), Sudan (8 blocks), Guinea (5 blocks), and Eritrea (1 block).

• METALLURGY LABORATORY AND ASSAY SERVICES

Our primary focus lies in delivering metallurgy laboratory and assay services specifically for mineral assay and evaluation. Additionally, we offer a wide range of metallurgy services and solutions.

5

2020

The Lunching of RIDA Group Strategy which started the Business Transformation Programme that emphasised the modernisation of RIDA Group across all business operations, the year 2016 also witnessed receiving The Achievement Shield Award from Sudanese Mineral Resources Company Limited

2019

(3) gold mining blocks acquisitions were successful in Guinea

2018

Witnessed the establishment of TMK Gold Project partnership with TMH Company in Guinea. Also in this year REMED Engineering was established

2011

Artisanal mining tailing re-processing methodology was introduced in Sudan

2013

Emirates Company acquisition in "Durdeeb, Haya", Sudan

2009

Alabediya heap leach plant production started (1st gold capacity of 3000 tons/day)

2007

Alabediya heap leach plant construction started

MILESTONES & ACHIEVEMENTS

2021

New projects in the fields of energy, agriculture, and technology. "Mine Needs" Training Center, allowed for further needed diversification of RIDA Group businesses and works.

2022

31 mining blocks acquisitions were successful in Morocco

2017

Witnessed the acquisition of the second gold exploration block in "Kerkebet", Eritrea

2016

Sutrebab mine feasibility study was conducted. Also this year witnessed receiving the Golden Outstanding Company Award from Ministry of Minerals in Sudan

2014

Witnessed the start of production in the CIL plant (Capacity of 1500 ton/day), And also witnessed the Acquisition of the 1st Block in Eritrea

2015

A second heap leach plant started production (Capacity of 3000 tons/day)

2003

The Drilling Section was established

2000

RIDA Group started the acquisition of a gold exploration block in Alabediya, Sudan

1993

Birth of RIDA Group

1996

RIDA Group started exploration operations for Chromium in Angassana, Sudan

**RIDA GROUP
SUBSIDIARIES**

1 | RIDA ENGINEERING AND CONSTRUCTION, SUDAN

gold and chrome exploration.

2 | BKN MINE

RIDA Group Recently acquired BKN MINE Company which has 31 Exploration Licenses.

3 | RIDA MINING, SUDAN

The company focuses on artisanal gold tailings processing; with 1,500 tons/day of CIL Plant and 15,000 tons/month of VAT plant.

4 | ROHAX TRADING, UAE

Dedicated to providing supply chain services and raw materials for mining activities (procurement and logistics),

5 | EMIRATES MINING, SUDAN

Acquired an exploration block in Red Sea state, Sudan; ownership of 2 mines; with 881km² of licensed Block

6 | RIDA ENGINEERING AND CONSTRUCTION, ERITREA

Acquired an exploration license in Kerkebet, Eritrea; with 1065km² licensed Block,.

7 | UMDURMAN MINING, SUDAN

The main focus is on gold mining and artisanal rock acquisition; ownership of 2 mines: Alsalam and Sutribab mines; operating multiple processing plants including a 3,000 tons/day heap leach (CIC) plant, in addition to the ongoing new project (1000 tons/day CIL plant) and the (CIC) expansion project to reach 6000 tons/day.

8 | REMED ENGINEERING, SUDAN

A leading company specialised in delivering mining technology, engineering projects, procurement services, construction, and commissioning services; with USD \$20+ Million in executed projects capital,

9 | ROHAX INTERNATIONAL

this company owns 3 subsidiaries in Guinea

10 | MANDING GOLD COMPANY, GUINEA

1. with an Exploration license for a licensed Block of 42km².

11 | STELLAR GUINEA COMPANY, GUINEA

With an Exploration license for a licensed Block of 100km², and finally

12 | R&R COMPANY, GUINEA

1. with the main focus of gold mining; owns an Exploration license for a licensed Block of 7.52km².

13 | MINE NEEDS

Is a corporate training center founded in 2020, specialize in training and human capital development, for both management and technical skills. In addition to the extensive industrial experience in mining industry, it has a pool of experts and facilitators specialised in specific areas that serve organizations of numerous industries. "Mine Needs" work together with organizations as smart partnership in providing hands-on solutions to help solve day to day business challenges by developing their employees.

8

**SOCIAL
RESPONSIBILITY**

SOCIAL RESPONSIBILITY

As a modernized industrial group, we prioritize our social responsibilities with a comprehensive understanding. We have integrated the principles of corporate social responsibility deeply into our strategic vision, mission, and values to ensure that all our operations and endeavors uphold these principles. From our people-centric philosophy to our steadfast commitment to ethical and responsible natural resource exploration, we are dedicated to fostering sustainable long-term growth for both our group and the communities where we operate. Ultimately, our corporate social responsibility initiatives play a crucial role in supporting our host communities, contributing to sustainable development, improving living standards, enhancing local infrastructure, and promoting environmental conservation efforts.

9

THE
ENVIRONMENT

THE ENVIRONMENT

As part of our mission and core values, we align with cutting-edge trends and globally recognized best practices in environmentally conscious mining and mineral exploration. Our stringent adherence to the highest health and safety standards underscores our commitment to exemplary risk management and environmental stewardship.

10

SAFETY

SAFETY

RIDA Group prioritizes the safety and health of all stakeholders throughout the entire mining and mineral exploration value chain. We are dedicated to promoting the wellbeing of our staff, employees, and members of our host communities. RIDA Group has successfully developed and implemented comprehensive compliance initiatives, including policies, procedures, and training programs. These initiatives cover emergency management services, performance monitoring, and risk assessment settings, ensuring robust safety standards across our operations.

INNOVATION

INNOVATION

Throughout its history, RIDA Group has consistently achieved transformative advancements in its operations through a steadfast commitment to innovation and pioneering solutions. As a forward-thinking leader in mining and mineral exploration, we are poised for the future by placing innovation at the core of our strategy. By integrating cutting-edge scientific research with innovative technologies, we continuously embed innovation into all aspects of our business operations.
